

POSITION DESCRIPTION

PNG Ports Corporation Limited

AM25000147 - Civil Engineer

PNG Ports Corporation Limited (PNGPCL) is a premier maritime service company in Papua New Guinea and is the largest port operator in the South West Pacific, outside Australia and New Zealand.

PNGPCL is committed to delivering high quality service to its stakeholders and is committed to attracting the highest calibre of professionals who can make a difference in the organization.

Applications are invited from qualified and experienced professionals for this position based at the head office in Port Moresby.

CIVIL ENGINEER

Reporting to the Manager Engineering, the Civil Engineer is responsible for carrying out inspections, repair and maintenance of existing infrastructure and contribute and participate in the development of new projects.

Key Responsibilities:

- Participate in the identification and development of infrastructure projects for all ports, and provide input into the design and costings of new developments
- Contribute to strategic planning and development as a civil engineer by participating in planning meetings and disseminating information
- Conduct inspections on existing Port facilities and infrastructure systems to ensure that operating infrastructure is in sound operational conditions
- Undertake research, analysis and evaluation into external port user development proposals
- Participate in regular Reviewing of the 5-Year Capital and Major Rehabilitation Works Programs and monitor progress to ensure alignment with project plans
- Participate in all Engineering Projects including project proposal, budgets, tendering, contracts selection and administration, implementation and compliance, deliver projects on specifications, time and budget
- Evaluate capital works investment against economic returns based on NPV, ROR, ROI and other economic parameters, and provide a report to Management for consideration.

Expected Competencies:

- Do you have a Bachelor's degree or Post Graduate qualification in Structural and/or Civil Engineering? If yes, provide details
- Are you currently registered with IEPNG? If yes, provide details
- Do you have a minimum 5 years of experience as a Structural or Civil Engineer? If yes, please provide details
- Do you have experience in Engineering Management (Structural and Civil Construction) in a maritime industry? Provide details
- How familiar are you with statutory requirements for Structural and Civil construction? Provide details
- What is your knowledge of relevant Engineering regulations, codes and practices? Provide details
- Share your experience in project management?
- What is your experience in the use of Engineering software? Please specify
