

POSITION DESCRIPTION

National Finance Limited

AM4074 - Manager Information Technology, National Finance Limited

National Finance Limited (NFL) is a dynamic new force in the Papua New Guinea finance industry with offices located in Port Moresby, Lae, Mt Hagen and Buka.

NFL's vision is to establish itself as respected financial organisation building a reputation for responsible lending. NFL currently has a vacancy for a quality ICT Manager, with a "can do" attitude who shares this vision.

MANAGER INFORMATION TECHNOLOGY

The role reports to the General Manager Operations and is Port Moresby based.

The Manager Information Technology will lead the establishment and maintenance of the ICT Strategy and Roadmap that provides a secure, consistent, integrated approach to executing NFL's business while building the infrastructure to support future growth initiatives. The role will lead systems integration, project management and strategy implementation, ensuring delivery of the best technology outcomes for NFL.

Key Responsibilities:

- Manage and coordinate all aspects of the life cycle of ICT systems including infrastructure, IT Help Desk, Core Banking Team and systems applications
- Review current ICT infrastructure and identify system enhancements
- Maintain existing programs ensuring technology changes are embedded in the operations
- Set processes, policies, standards and practices to ensure compliance between business and technology strategies
- Manage the ICT network and ensure that all systems are protected from external threats
- Keep abreast of risks and ensure corporate and cyber security is maintained
- Maintain all data bases and back up DR server
- Liaise with all parties to understand their requirements and how best to meet them
- Secure management support for required projects, upgrades and systems enhancements
- Manage and oversee all stages of the development lifecycle of new projects
- Work to deliver projects on time and on budget
- Oversee maintenance of hardware
- Testing of DR and BCP processes on a quarterly basis
- Build and maintain company Intranet
- Optimize profitability and customer satisfaction through technology
- Ensure that all reported issues are resolved efficiently and effectively.

Expected Competencies:

- Bachelor or Master's degree in Information Technology, Information Systems or Business equivalent
- Minimum 12 years' experience in the field of ICT with minimum 7 years' experience in leadership or management in an ICT setting
- Have complex project leadership experience including hands-on experience in all relevant coding languages (C#, HTML, JavaScript)
- Experience with Finpower CBS will be highly advantageous
- Experience in PABX management and the use of VOIP technology is essential
- In-depth knowledge and understanding of enterprise systems architecture, cloud integrations and cybersecurity
- Significant experience in ICT strategic planning and all phases of the development lifecycle
- Possess effective negotiating skills in both vendor and contract management

- Evidence of continuing education such as certifications will be viewed favourably
- Hands on experience in Website management
- Experience in all facets of SQL Data Base Applications including MS Office, MS Server programs, MS Outlook exchange set up and ongoing management
- Ability to foresee possible issues and troubleshoot them proactively
- Excellent communication and interpersonal skills
- Energetic and deadline focussed with excellent attention to detail
- Be highly motivated and willing to work outside of task list.

If you feel that you possess the necessary experience, passion and commitment to fulfil this role, and are willing to work in a dynamic organization, then this is the organization for you.

This position is open to PNG citizens only.
