

POSITION DESCRIPTION

AM4079 - Civil Engineers

Civil Engineer x 2

Our client, is one of PNG's largest and most successful private sector organizations with its head office based in Port Moresby and operations throughout the country. Its current and future growth and development opportunities have been significantly enhanced with a number of significant market and demand driven challenges and opportunities as identified in its recently completed Infrastructure Master Plan. The organization is currently undergoing a major revitalization of its key assets to meet these major challenges and to develop the capacity of its workforce to deliver high quality projects and assets in order to better service all its stakeholders. The organization is committed to attracting the highest calibre of professionals who can make a difference to the organization and provide a positive work environment which rewards employees who contribute to business success.

Reporting to Manager Engineering, our client seeks expressions of interest to these positions. You will be responsible for managing a wide range of civil engineering projects associated with our client infrastructure and assets, and contributing to a dedicated and committed team.

These positions will be based in Port Moresby.

Our client offers genuine professional career challenges and opportunities and competitive salary and conditions for these key positions.

Expected Competencies:

- A recognised degree in Civil Engineering with professional membership of, or eligibility for, The Institution of Engineers, PNG Inc
- Sound knowledge of Project Management and Contract Administration of Structural and Civil Construction Projects within the Engineering Design and Construction industry
- 10 years "hands on" professional experience in a similar role handling multiple large engineering projects. Applicants must have had extensive exposure to construction and maintenance of civil and marine infrastructure projects
- Computer literacy, strong oral and written communication skills in English, a proven track record of effective negotiation and people skills; Adequate background knowledge in Civil CAD, AutoCAD, Structural Analysis Software, or MS Project etc. will be an advantage
- Proven professional competence and commitment to past professional employment, self-starting ability and integrity.

This position is open to PNG Citizen only
