

POSITION DESCRIPTION

Credit Corporation Finance Limited

AM7054 - Banking Business Analyst

Credit Corporation Finance Limited (CCFL) is a substantial force in the Financial Sector in Papua New Guinea and the South Pacific region. CCFL is delivering on the strategic initiative of the company becoming accredited as a bank. To support this, Credit Corporation has a newly created Banking Business Analyst role based in Port Moresby.

Banking accreditation is contingent on defining and delivering people, systems and processes that support the functions of a bank. CCFL Banking Business Analysts is a crucial role in identifying, developing and delivering these requirements.

BANKING BUSINESS ANALYST

Reporting to the Project Manager, the Banking Business Analyst will work closely with the business to identify, plan, develop and deliver requirements that supports Credit Corporations Transformation.

Key Responsibilities:

- Create and maintain detailed Business Analysis procedures and processes
- Actively support the development business, system, testing and acceptance requirements
- Assess, research, analyse, and document stakeholder needs, using recommended (or selecting appropriate) information gathering and/or modelling techniques
- Contribute to business solutions while continuously exploring and assessing options for value-add
- Contribute to successful completion of project objectives
- Prepare appropriate documentation and ensure adequate end-user training for assigned projects
- Plan and execute ongoing detailed system requirements and resolve business systems issues.

Expected Competencies:

- Bachelor's degree in Business Administration, Finance, MIS or related field
- Minimum of 2 years related experience within the insurance or banking industry preferred
- Experience with appropriate analysis, design and system development methodologies
- Experienced in any of lending, payments or deposit products
- Demonstrated analytical ability to gather system and business unit requirements
- Demonstrated ability to document complex concepts in suitable formats including business processes, business requirements, system requirements
- Demonstrated ability to document, communicate and organise requirements into process, data and workflow models
- Ability to test as-is state, to-be and final state models against requirements
- Experienced working across multiple business units
- Able to work autonomously and respond to work situations with minimum guidance or direction
- Team player and can work collaboratively with and through others
- Ability to plan, multi-task, manage time effectively, and work well independently
- Ability to work with, support and compliment training programs and teams
- Forward looking with a holistic approach.

If you think you have what it takes to be in this role, we would like to hear from you.
